LINK

**QUICK
START!**

Vehicle tracking

EASY STEPS

-  Plug your LINK into the car's OBD port, which is usually found underneath the steering wheel. When plugged in, a blue light should appear.
-  Download the Hopper app and go to the device manager to connect your LINK and phone via the app.
-  Select your preferred mechanic in the app and let them monitor your car's data. They will contact you if necessary.
-  That's it. Enjoy & drive safely!
